

COE HPR (High Power Retrofit)

COE
PRESS EQUIPMENT

Weekend Retrofit from 50-500 HP

COE's High Power Retrofit (HPR) controls are designed to be quickly implemented into existing lines. Whether the original equipment is COE or produced by another manufacturer, COE's HPR controls come complete with everything necessary for a weekend upgrade. Various drive sizes are available to meet varying torque and speed requirements for roll feeds of any size.

The HPR controller can integrate with press controls to provide a complete and compact controls system with "single point entry" for all job specific parameters. Interfaces are available for Wintriss, Link Systems, and many others.

Compact Footprint – The single console is compact and can be floor- or deck-mounted, taking up little space.

Fully Accessible – Top deck and facing doors are lockable and interlocked for safe, secure and complete access.

Complete Drive Package – Robust drives tuned and ready to get you up and running quickly.

COEHPR

FEATURES & BENEFITS

Standard Package

- User-friendly VGA color touchscreen interface
- Customizable operator screens
- Free-standing operator station
- 10-foot pre-wired cable set
- DC motor from 50–500 HP
- Remote jog pendant
